Care & Cleaning

Coeur de France • Bordeaux

Furniture ordered at different times are not guaranteed to match. Each piece of Coeur de France / Bordeaux's fine wood furniture is finished by hand, involving many steps. Woods have grain and color variations due to growth patterns of each tree. The result is a beautiful and unique piece. Due to these wood variations, finishes on individual pieces are not guaranteed to match.

Finishes & Hardware

Coeur de France / Bordeaux finishes are resistant to minor everyday hazards; however, some precautions are necessary to maintain the beauty of your Coeur de France / Bordeaux wood furniture.

- Dust with a soft, clean cloth slightly moistened with clean water, and dry completely with another clean cloth, always rubbing with the grain of the wood.
- Avoid contact with cigarettes, hot dishes, harsh solvents, such as nail polish, alcohol and moisture.
- Use pads beneath accessories and when writing and eating to avoid any marring and scarring of the surface of your furniture.
- Remove any spills and smudges immediately.
- Do not leave any pliable materials on a wood surface; they can damage the finish.
- Do not place furniture near heat outlets, windows, or in direct sunlight.

Decorative Hardware

The decorative hardware on the furniture featured in this catalog has been protected with a clear lacquer coat.

- Use of harsh detergents or brass polish in an attempt to obtain high luster will result in the removal of the protective lacquer and will damage the finish of the hardware.
- Do not use harsh detergents, brass, silver, or any other kind of polishes.
- Use a soft, clean damp cloth to remove dust.
- Our furniture will maintain its beauty if treated with reasonable care.

These easy and simple procedures will keep your Coeur de France / Bordeaux furniture looking its best, year after year.
